

Creating beautiful bathrooms everyday!

*Rediscover Luxury in
Your Bathroom...*

A recent BusinessWeek.com article brought to light the fact that there's a drastic shift occurring in the home renovation market. Instead of revamping kitchens and other previously popular parts of the home, the trend has shifted toward bathroom remodels. Compared to the last decade, the average bathroom has tripled in size. With that fact in mind, more and more people are discovering the beauty, style, and luxury their bathroom's can contain by renovating their bathrooms with the latest modern bathroom furnishings and fixtures. No longer is the bathroom a cold and quiet room hidden away in your home. Today, bathrooms are taking on more vibrant and modern designs and highlights. The influx of exquisitely crafted contemporary bathroom vanities, sinks, and faucets has provided homeowners with more options, designs, and styles to push the look and feel of their bathroom to the highest level.

With the real estate market in a sluggish state, people are looking at their own homes in a new and interesting way. Luv My Bathroom

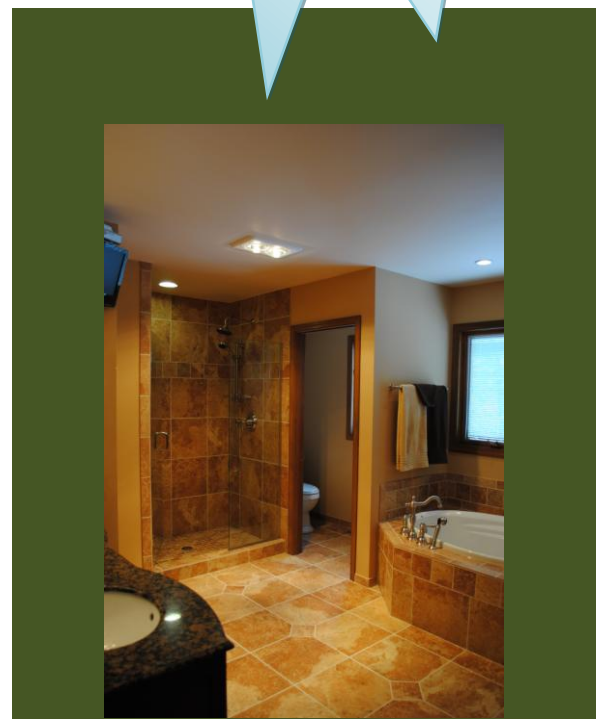

is responding to homeowners that are asking for help to create a vision for their own homes and to give them a totally transformed space in their bathrooms. One popular option has been to remove the tub and to opt for a large walk-in shower with all the bells and whistles.

Hiring a knowledgeable company that knows bathrooms exclusively makes all the difference.

Luv My Bathroom has over 25 years of knowledge and expertise and is ready to help you turn your bathroom into a restful and relaxing *retreat!*
